EXAMINER'S AMENDMENT

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

The application has been amended as follows: canceled claim 7.

Claim 2 is generic and allowable. Accordingly, the restriction requirement as to the encompassed species is hereby withdrawn and claims 5, 8 and 9, directed to other subspecies of species I (single side printing) are no longer withdrawn from consideration since all of the claims to these sub-species depend from or otherwise include each of the limitations of an allowed generic claim. However, claim 7, directed to the species II of double sides printing remain withdrawn from consideration since it cannot depend upon or otherwise include all the limitations of an allowed generic claim (directed to single side printing) as required by 37 CFR 1.141.

In view of the above noted withdrawal of the restriction requirement as to the linked subspecies, applicants are advised that if any claims depending from or including all the limitations of the allowable generic linking claims be presented in a continuation or divisional application, such claims may be subject to provisional statutory and/or
